How did you find out about us? _____

PLEASE READ THE FOLLOWING AND SIGN BELOW:

BRAS Thermography uses a Meditherm Digital Infrared Thermal Imaging camera to provide a 15-minute non-invasive test of physiology. DITI detects the minute physiologic changes that accompany breast pathology.

I understand that BRAS Thermography does not provide a medical diagnosis, but simply acts as the clinical Thermographer-transmitting digital pictures to EMI, a medical digital infrared thermal imaging service. An M.D. will interpret the images and return the images to BRAS. This evaluation may suggest further medical testing. If further testing is suggested I will consult my physician or health care provider. A doctor to doctor consultation can be arranged between Meditherm and your doctor if necessary.

I give my permission for the Clinical Thermographer at BRAS to take and submit DITI pictures for interpretation. I understand that by doing so, the Clinical Thermographer is not becoming my primary care physician. I understand that a copy of the report with images will be mailed or emailed to me so that I can share it with my health care practitioner or primary care doctor.

PATIENT DISCLOSURE

I understand that the Report generated from my images is intended for use by trained health care providers to assist in evaluation, diagnosis and treatment. I further understand that the Report is not intended to be used by individuals for self-evaluation or self-diagnosis. I understand that the Report will not tell me whether I have any illness, disease, or other condition but will be an analysis of the Images with respect only to the thermographic findings discussed in the Report.

By signing below, I certify that I have read and understand the statements above and consent to the examination.

Patient Signature _____Today's date _____

Physician's Name: _____Referred___ Send report ___

Thermographer's Signature_____ Date_____

All Clinical Thermographers
are trained and certified by the ACCT.

Patient Name: _____ **DOB:** _____

Please indicate <u>current</u> condition/treatment (3-month waiting period)
